ALGERBAIC FRACTIONS REVIEW TASK

$$A = \frac{4x}{5x}$$

$$B = \frac{x^2+x}{10x^2-20x}$$

$$C = \frac{x+1}{x^2+3x+2}$$

$$D = \frac{x}{10x^2-40}$$

$$E = \frac{2}{x+1}$$

Create a solution poster that completes all of the following parts:

1. Evaluate fraction C for x =3   and fraction D for x = 2.
2. Find the excluded values for fraction B and E
3. Find A – C
4. Find A * B
5. Find C ÷ D
6. Find (A +E) * B
7. Find A ÷ B ÷ C *D ÷ E
